

### **Megan Robinson**

Megan is a senior at the University of Alabama at Birmingham pursuing a B.S. in Psychology and minor in Sociology. She will graduate in April of 2018. She has always loved helping others and reducing the stigma surrounding individuals with disabilities. After beginning school at UAB, she started volunteering at McCoy Adult Day Care, The Bell Center, and later discovered Triumph. She has always had a passion for providing new opportunities to those with developmental disabilities. Megan had the great joy of serving as one of three Summer Program Interns for Triumph's 2017 Summer Program. She had the opportunity to take a leadership role during the second session.

Since then, she has fallen more in love with Triumph and Birmingham as a whole! She has continued to work at Triumph, helping in any way possible. In her spare time, she enjoys exploring local coffee shops, taking pictures, and writing music.
